SECTION F.—MISCELLANEOUS.

1. THE WEAVING COMPETITION.

In connection with the Exhibition of 1914 a competition in Weaving and its preparatory process will be held in the Exhibition premises, Mysore. The following rules regulating the competition are published for the information of the intending competitors.

SECTION I.

The competition will commence on Thursday the 1 of October 1914 and will be continued for three days.

2. Weavers will be required to work for 7 hours day, from 8 to 11-30 A.M. and from 2 to 5-30 P.M.

3. Any kind of hand-loom may be entered for th competition; but competition among weavers in each clas will be among weavers working on the same kind of loom.

This rule does not effect giving loom prizes to any kind of loom that enters into any kind of competition.

4. No prizes or medals will be given to competitors in a certain class, when the number is less than 3. But all *bona-fide* weavers with a piron driver for helping each competitor, will be given their third class fare to and fro at concession rates or reasonable cart hire and an allowance of five annas per day for five days only, if they come and demonstrate any of the operations that are mentioned in the items for competition. Those that desire to utilize this opportunity for weaving extraordinary patterns will have to intimate to the Secretary at least 15 days before the

Exhibition commences when the necessary arrangements will be made for the same. Weavers in Mysore City will get only their daily allowance.

5. A man that has once competed in weaving one kind of cloth and won a prize will not be allowed to compete in the same kind of cloth for three years to come, but such competitors may be allowed and given a special prize by the judges if they think that the competitor serves as a model to local weavers. This rule equally holds good in the case of awarding medals and prizes to the looms.

6. Competitors will be allowed to fix the warps on the looms beforehand and to weave a length not exceeding two yards before the competition commences.

7. Under Sub-Committees with the Chief Revenue Officer of the locality as President, competitions in any of the undermentioned tests will be held in the month of August in all the most important weaving centres of the Province. There must be at least three competitors in each of the tests. Two prizes of Rs. 10 and 7 will be awarded in each centre. The first of the competitor in each of the tests will be required to compete in Mysore at the time of Dasara.

8. A competitor can compete in any one of the following tests (*a* to *d*):—

The Manager of a factory or a school may send one or more weavers to compete for one or more tests.

The following are the tests for the competition of this year:—

WOMEN'S SECTION.

SYLLABUS 1914.

The first aim of this section is to bring into touch with each other women, who, having themselves learnt the value of new occupations and interests, are anxious to hand on this knowledge to others. Plain or fancy needle-work, lace-making, basket making, knitting, all these are occupations enjoyed by a large number of women and girls in India, but there remain a still large number who have neither seen nor heard about them. To interest these it is important to collect for Exhibition, the best that is done in all branches of women's work, and it is only the best in each section of the work that can be encouraged by the award of medals and prizes.

This is one of the most difficult things to impress upon intending exhibitors. It is not any kind of work that can be accepted. Certain groups are selected in the syllabus and only the really good work sent in under each group is likely to be admitted. To understand the importance of sending in only the best work, the following rules should be carefully studied and conscientiously carried out.

1. In needle-work the best materials that can be procured should alone be used : it is waste of time to put good work on to poor material which will neither wear nor wash.

2. One neatly stitched, well finished off exhibit is more likely to win a prize than a large bundle of carelessly done work ; no amount of trimming will improve a badly made article.

3. Moth-eaten, faded, torn or dirty work cannot be accepted.

4. Exhibits which have already won prizes in j
vious Exhibitions cannot compete. They will be accep
as "Loan Exhibits" or exhibited for sale if space perm

5. No work will be accepted that does not co
under one or other groups in the syllabus. *Space in*
exhibition being limited, there can be no exception to t
rule.

6. *None but genuine women or children's work u*
be allowed to compete for prizes in this section.

With regard to this year's syllabus it was at first su
gested that to appeal more strongly to Indian ladies
should restrict the work to that of Indian use and desig
but since European needle-work is yearly becoming
important source of income to Indian women we felt t
same object might better be served by making the class
more distinct and by increasing the prizes. Only la
machine work and crochet have been omitted from th
syllabus and these not in the children's group.

It is hoped that the improved standard of last year
work will be maintained and that Indian ladies will contr
bute in far greater numbers than heretofore. We shoul
also urge any ladies interested in children's work to mak
this Exhibition known as widely as possible as the numbe
of exhibits sent in by children last year was most disap
pointing.
